

## The New Herald Publishing House

The above cut will give you an idea of the building that is being erected for the use of the publishing department of the church. It is 50x80 feet, two stories, besides a full basement under the entire building. A separate building will be erected for the power, heat and light plant. It is being made as near fire proof as possible.

We believe that every Saint is anxious to see the building completed and will want to assist to that end. The SAINT'S HERALD, *Zion's Ensign*, and the *Autumn Leaves* are all published by the church, and a subscription to any of these publications will perhaps pay for a brick in the new building. We want every family in the church to subscribe for all three of these papers for a year or two and our new home will be paid for. *This Means You—Do It Now*. If you are already a subscriber for the three publications, why not "warn your neighbor," by sending him one or more of these papers? You will bless his life and benefit yourself as well. Prompt action is necessary that the work may not be hindered.

Your colaborer in bonds,

F. B. BLAIR, Manager.
